March 23 2015,

On March 1 2015 I sent the IBEW LU 424 the name of a doctor who was willing to do the Independent medical Exam ("IME")

[REDACTED]

[REDACTED]

The IBEW LU 424 was asked to send a letter over to Dr. Chue to confirm that they wanted the IME done and that they would be paying for that IME. The IBEW LU 424 has previously agreed to this in the letter as well from Kevin Levy dated November 25 2014, which has previously been given to the union again and all parties involved in this matter.

I also asked that before the information was faxed to Dr. Chue that the letter also be sent to me via email in a PDF format.

The IBEW LU 424 has failed to contact this doctor and provide him the needed information to be able to start the IME process.

The IBEW LU 424 has asked for this IME to be done, prior to November 2014 the IBEW LU 424 did want me to go see Dr. Els and I was asked to see Dr. Els by the IBEW LU 424 at the Alberta Labor Relations Board ("ALRB") pre-trial conference hearing.

It was only in about November 2014 that the IBEW LU 424 that Kevin Levy has stated that I would be allowed to see a truly independent doctor. But the IBEW LU 424 never came back to me with the name of a doctor they wanted me to see. So I found a doctor who has agreed to do the IME and now the IBEW LU 424 still has not contacted that doctor to start this process. It has now been 23 days since I first sent the information to the IBEW LU 424.

The IBEW LU 424 needs to prepare a letter to start this IME process if they want this done or immediately return me to work again.

The IBEW LU 424 cannot continue to keep me in limbo like this. I have agreed to your IME even though it is still frivolous and yet now the IBEW LU 424 still refuses to contact the doctor who is willing to do the IME and continues to keep me out of work.

This is unacceptable IBEW LU 424 either speak to the doctor immediately and start this IME process or return me to work immediately!
